THE LEGEND OF ZELDA: MAJORA'S MASK

The Nintendo® 64 Controller

Control Stick Function

The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press START while holding down the L and R Buttons.

The Control Stick is a precision instrument; make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo Consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair Center™.

Holding the Nintendo 64 Controller

While playing the *Zelda: Majora's Mask* game, we recommend you use the hand positions shown on the left. By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A, B or C Buttons.

Connecting the Nintendo 64 Controller

Up to four players can play this game. Connect each player's controller to the appropriate controller socket on the front of the Control Deck. Beginning on the left, the sockets are for Player 1, Player 2, Player 3 and Player 4. You cannot start the game if the first controller socket is empty.

If you change the connection during the game, you will need to either press RESET or turn the power OFF to make the connection active.

N64 Rumble Pak™

This game is compatible with the Rumble Pak® accessory. Before using it, be sure to read the Rumble Pak accessory instruction booklet carefully. Make sure that the Control Deck is OFF when inserting or removing the Rumble Pak accessory.

In the land of Hyrule, there echoes a legend. A legend held dearly by the Royal Family that tells of a boy...

A boy who, after battling evil and saving Hyrule, crept away from that land that had made him a legend...

Done with the battles he once waged across time, he embarked on a journey. A secret and personal journey...

A journey in search of a beloved and invaluable friend...

A friend with whom he parted ways when he finally fulfilled his heroic destiny and took his place among legends...

Link

Several months after rescuing Princess Zelda and saving the land of Hyrule, Link set foot into the mysterious world of Termina by choice while in the midst of a new journey. There, Link heard a fateful rumor that in just three days, the moon would fall from the heavens onto that land...

Skull Kid

Wearing a mystical mask, he appeared suddenly before Link. Hidden within that mask was tremendous power — a power that not even he understood.

N64 EXPANSION PAK

If your N64 Expansion Pak inserted properly?

The Legend of Zelda: Majora's Mask **REQUIRES** the N64 Expansion Pak. Please refer to the Nintendo 64 Expansion Pak Instruction Booklet regarding inserting and removing your N64 Expansion Pak.

NOTE: Games that do not require the N64 Expansion Pak can be played while the Expansion Pak is inserted in the N64 Control Deck. You do not need to replace the Joystick Pak to play such games. Carelessly inserting and removing the N64 Expansion Pak can cause damage.

Welcome to Termina

This is a kind of parallel world that is similar to and yet different from the land of Hyrule, which was the setting for the Legend of Zelda: Ocarina of Time. Termina is a mysterious place, and the people Link meets here may look vaguely familiar at first glance.

Clock Town rests at the heart of this world. Heading any direction from there will take you to the mysterious regions beyond. The centerpiece of Clock Town is the clock tower. It is the symbol of the town and the center of activity, as the townsfolk are busy with preparations for the annual carnival, despite rumors that the moon will fall from the heavens in just three days.

Tatl

A slightly overbearing fairy, Tatl is always thinking of her younger brother. She will be the companion that Link will often find himself relying on in this adventure.

Epona

The faithful, young horse that has journeyed with Link throughout his adventures is taken from him by the Skull Kid. Will Link and Epona ever meet again?

The Deku Tribe

The Dekus live primarily in a palace surrounded by the waters that flow from Woodfall. Their King is terribly stubborn and will not permit people of other tribes to enter his palace.

The Goron Tribe

The Gorons live in the small shrine east of Snowhead and its steep mountainous peaks. Though used to harsh weather, the Gorons are in the grips of an unusually fierce cold snap.

The Zora Tribe

Since this tribe lives in the water, they are particularly sensitive to environmental changes. The songs of the Zora band, The Indigo-gas, are popular with people of all races.

Saving and the Passage of Time

The Interrupt Save Feature

In addition to playing the Song of Time to save your game, you can also use the Interrupt Save Feature to interrupt your game, save your current status and quit playing. Your current status, including all masks, items, conversations and the time of day will be temporarily saved until the next time you play. Once you continue that game, though, the saved status will be lost, so after continuing your quest, be sure to save again using the Song of Time. If you just turn the power OFF without saving again, you will have to restart from the last time you saved using the Song of Time.

Saving With the Interrupt Save Feature

To temporarily save your status until the next time you play, visit one of the owl statues. Hit the statue with your sword if you haven't already done so, then press **A** to check it. After carefully reading the instructions, choose Yes and press **A** to interrupt your game and save your status. **Wait until the Title Screen appears before turning the power OFF.** Otherwise, your data may not be saved.

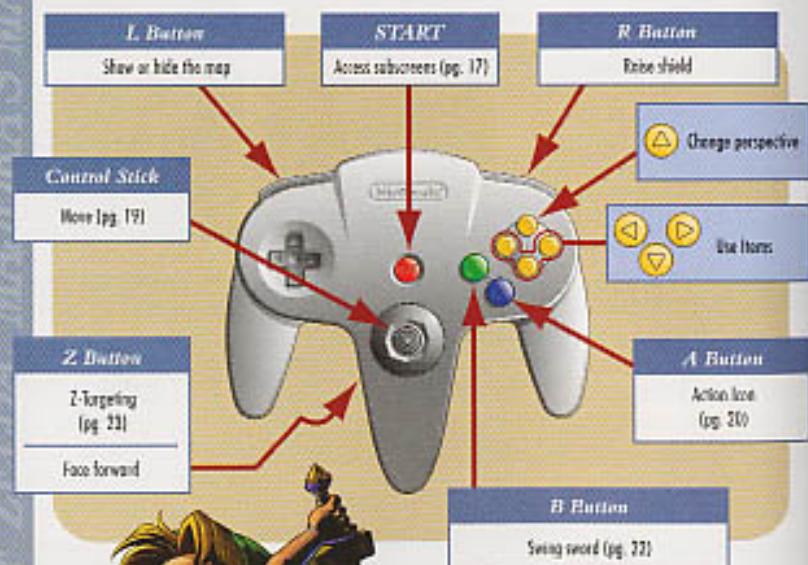

After saving and quitting, an owl mark will appear beside the save file on the File Selection Screen. When you select that file and press the A Button, the day (First, Second or Third) and time of day that the file was saved will be displayed. To continue playing, simply press the A Button again. After continuing, be sure to save using the Song of Time before you quit.

Basic Controller Functions

Link's Basic Actions

Link can perform the moves explained here when he is not wearing any masks. When Link wears a mask and assumes special new abilities, the controls may change slightly. Please see pages 25–27 for more information.

LIMITS ON CONTROL

During the game, there may be times when your controls are limited. Buttons that cannot be used will appear transparent.

Control Stick

The Control Stick is used mostly to move.

Walk / Run

Tilt the Control Stick in the direction you want to move.

The speed Link moves at will vary depending on how much you tilt the Control Stick. It is best to tilt the Control Stick lightly and walk slowly on tricky ledges.

If you hold **Z** while moving, Link can move forward, back, left or right while facing forward.

Jump

Run toward the edge of a ledge.

If you run toward the edge of a low ledge or cliff, you will automatically jump in the direction you are running. (Depending on height and distance, there may times when you cannot jump.)

Swim (on the surface)

Tilt in the direction you want to swim.

Dive

Press **B** to swim faster.

Press and hold **A**

Length of time you can dive.

The number shows how long you can stay underwater. Zora Link can do amazing things underwater. (See page 27.)

Basic Controller Functions

A Button

The Action Icon

The blue icon at the top of the game screen is the Action Icon. The text appearing on the icon changes depending on where Link stands, and it tells you what option Link can perform at that particular time. Press A to perform the action shown on the action icon.

Grab

or while grabbing with A

When standing in front of a block, press A to grab it. After grabbing a block, keep holding A and tilt the Control Stick to move the block in that direction.

Drop

When hanging from the edge of a ladder or ledge, press A to let go and drop to the ground. If you move the Control Stick without pressing A, Link will climb back up the ledge.

Depending on height, you may be able to use the Control Stick to make Link climb some blocks and ledges. Link may or may not be able to climb certain ledges depending on the mask he is wearing at the time, though. You can climb ladders this way, too.

Throw Place

+ A after grabbing with A

After pressing a C Button to take out a bomb, you can press A to throw the bomb after tilting the Control Stick and running. If you press A while standing still, you will place the bomb at your feet.

Open

"Open" will show on the Action Icon when you're standing in front of a door. For chests, you must stand directly in front for the icon to change.

OTHER ACTIONS

Speak

"Speak" will display on the Action Icon when you're standing in front of a person. (You can also use Z-targeting to speak to people from a distance.) When a person's conversation continues, "Next" will be displayed. Many conversations contain important information, so continue to the next message only after first reading everything someone has to tell you.

Check

When Link is able to read signs, "Check" will display.

Hints

The Owl Statues and the Song of Soaring

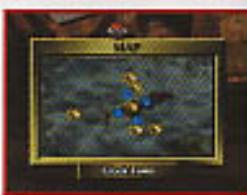

Throughout the world of Termina you will find mysterious owl statues. When you do something to one of those statues, it will change its shape.

And when you play the Song of Soaring, which you will learn at some point in your quest, you will be able to warp to areas where there are Owl Statues. As you explore the world of Termina, you'll find that the Song of Soaring will allow you to travel to distant places in a matter of seconds. Owl Statues also allow you to temporarily save your game. (See page 12.)

Sub-Events

There is much, much more to the world of Termina than simply exploring mazes and battling enemies. As you journey through the land, you'll get caught up in a number of hidden sub-events that aren't directly related to completing your quest. These events will draw you deeper into the world of Termina and give you a glimpse into the lives of its inhabitants. They may even reward in ways that you do not expect.

Owls mark the places you can warp to.

Track People's Schedules with the Notebook

Once you receive your Bomber's Notebook, talk to as many people as you can and keep track of their schedules and troubles. Since you can save this information, use it as a reference to help you decide what, where and how to take action. You may also be able to receive particular items at several different times of day, so these times will be shown in blue in your notebook. Regardless of when you receive the item an icon will be displayed on each of the appropriate bars, showing that you've gotten the item.

See page 35 about the Bomber's Notebook.
